[CLICK HERE](#) to download our inventory of movies.  
They are also listed below.

Our movie inventory is on an Excel spreadsheet and is sorted primarily on the rating and secondarily on the modified title (far right column). You can resort the list in any manner that you wish. Please read the notes below for an explanation of memos in the database, and other things you need to know.

**Note:** To see a picture of the movie cover and learn more information about any of the movies listed, go to [WWW.IMDB.COM](http://WWW.IMDB.COM) to search for the title. If any of the X rated movies are not listed there, go to [www.iafd.com](http://www.iafd.com) or [www.adultfilmdatabase.com](http://www.adultfilmdatabase.com).

**Note:** Ratings shown are estimated by the webmaster, if a movie's rating has not officially been assigned by the MPAA.

**Note:** The listings with number titles 8000 to 8999, are VHS tapes or DVD's that have four movies on each, for the same price as single movie tapes or DVD's. Those tapes are recorded at EP speed. The DVD's are recorded at SP speed, double-sided, and edited down to fit, by the manufacturer.

**Note:** All listings are original movies, on VHS or DVD, in original sleeves or boxes, except those marked with (NOD), which are DVD-R unmarked discs rather than the originals, which are too valuable to sell at normal prices. The listings that do not have original color sleeves or box covers will say (no cover) after the title.

**Note:** All tapes and DVD's have been pre-viewed and are quality guaranteed.

**Note:** Listings which have (DFW) after the title, are "double feature with". Their double feature is listed separately, but you get both on the same tape or DVD for the same price.
